Footnotes:

1. A dependent child is a person in a household aged 0-15 (whether or not in a family) or a person aged 16-18 who is in a family with parent(s).
2. The terms used to define tenure are defined as: 'Other social rented' includes rented from Registered Social Landlord or Housing Association, Housing Co-operative and Charitable Trust; 'Rented from council' refers to rented from council (local authority)/Scottish Homes in Scotland and Northern Ireland Housing Executive in Northern Ireland; 'Private rented' - renting from a private landlord or letting agency, employer of a household member, or relative or friend of a household member or other person.
3. The 'occupancy rating' provides a measure of under-occupancy and overcrowding. For example, a value of -1 implies that there is 1 room too few and that there is overcrowding in the household. The occupancy rating assumes that every household, including one person households, require a minimum of 2 common rooms (excluding bathrooms).
4. NS-SEC stands for the National Statistics Socio-Economic Classification.
5. 'Not classified' includes people who have not been coded, those who cannot be allocated and NS-SEC category and all full-time students regardless of if they are economically active or inactive.
6. The term 'unpaid care' covers any unpaid help, looking after or supporting family members, friends, neighbours or others because of long-term physical or mental ill-health or disability or problems relating to old age.
7. 'Language needs indicator': either born outside the UK and whose Household Reference Person (HRP) was born outside the Irish Republic, the USA or the 'Old Commonwealth' or who were born outside the UK and whose HRP was born outside the UK, the Irish Republic, the USA, or the 'Old Commonwealth'.
8. 'General health' refers to health over the twelve months prior to Census Day (29 April 2001).
9. Car or van availability includes any company car or van if available for private use.
10. For long-term unemployed, year last worked is 1999 or earlier.

Footnotes:

1. The terms used to define tenure are defined as:

'Owned': either outright, owned with a mortgage or a loan, or paying rent and part mortgage (shared ownership);

'Other social rented' includes rented from Registered Social Landlord, Housing Association, Housing Co-operative and Charitable Trust;

'Rented from council' refers to rented from council (local authority)/Scottish Homes in Scotland and Northern Ireland Housing Executive in Northern Ireland;

'Private rented' - renting from a private landlord or letting agency, employer of a household member, or relative or friend of a household member or other person;

'Living rent free' could include households that are living in accommodation other than private rented.

2. The 'occupancy rating' provides a measure of under-occupancy and overcrowding. For example, a value of -1 implies that there is 1 room too few and that there is overcrowding in the household. The occupancy rating assumes that every household, including one person households, require a minimum of 2 common rooms (excluding bathrooms).

3. Car or van availability includes any company car or van if available for private use.

4. Driving a car or van includes sharing driving and car-pooling in Northern Ireland.

5. 'Other living arrangements' includes: in a household with two or more people but not part of a couple.

6. The term 'unpaid care' covers any unpaid help, looking after or supporting family members, friends, neighbours or others because of long-term physical or mental ill-health or disability or problems relating to old age.

7. 'General health' refers to health over the twelve months prior to Census Day (29 April 2001).

Footnotes:

1.The terms used to define tenure are defined as:

'Owned' - owned outright, owned with a mortgage or loan, or paying part rent and part mortgage (shared ownership); 'Social rented' includes rented from the council, registered social landlord, housing association, housing co-operative and charitable trust; 'Rented from the council' refers to rented from the council (local authority)/Scottish Homes in Scotland and Northern Ireland Housing Executive in Northern Ireland; 'Private rented' - rented from a private landlord or letting agency, employer or a household member, or relative or friend of a household member or other person; 'Living rent free' could include households that are living in accommodation other than private rented.

2.The 'occupancy rating' provides a measure of under-occupancy and overcrowding. For example, a value of -1 implies that there is 1 room too few and that there is overcrowding in the household. The occupancy rating assumes that every household, including one person households, require a minimum of 2 common rooms (excluding bathrooms).

3.Car or van availability includes any company car or van if available for private use.

Footnotes:

- The 'occupancy rating' provides a measure of under-occupancy and overcrowding. For example, a value of -1 implies that there is 1 room too few and that there is overcrowding in the household. The occupancy rating assumes that every household, including one person households, require a minimum of 2 common rooms (excluding bathrooms).
- 'Other' in industry includes other community, social and personal activities, private households with employed persons, extra-territorial organisations and bodies.
- Car or van availability includes any company car or van if available for private use.
- General health refers to health over the 12 months prior to Census Day (29 April 2001).
- The term 'no qualifications' describes people without any academic, vocational or professional qualifications. The term 'lower level qualifications' is used to describe qualifications equivalent to levels 1 to 3 of the National Key Learning Targets (i.e. GCSEs, 'O' levels, NVQ levels 1-3). The term 'higher level' refers to qualifications of levels 4 and above (i.e. first degrees, higher degrees, NVQ levels 4 and 5, HND, HNC and certain professional qualifications).
- NS-SEC stands for National Statistics Socio-Economic Classification.
- 'Not classified' includes people who have not been coded, those who cannot be allocated to an NS-SEC category and all full-time students regardless of whether they are economically active or inactive.

Footnotes:

1. The terms used to define tenure are defined as:

'Owned': either owned outright, owned with a mortgage or loan, or paying rent and part mortgage (shared ownership). Social rented includes rented from council, Registered Social Landlord, Housing Association, Housing Co-operative and Charitable Trust; 'Rented from council' refers to rented from council (local authority)/Scottish Homes in Scotland and Northern Ireland Housing Executive in Northern Ireland; 'Private rented' - renting from a private landlord or letting agency, employer of a household member, or relative or friend of a household member or other person.

2. The 'occupancy rating' provides a measure of under-occupancy and overcrowding. For example, a value of -1 implies that there is 1 room too few and that there is overcrowding in the household. The occupancy rating assumes that every household, including one person households, require a minimum of 2 common rooms (excluding bathrooms).

3. Car or van availability includes any company car or van if available for private use.

4. A dependent child is a person in a household aged 0-15 (whether or not in a family) or a person aged 16-18 who is in a family with parent(s).

Footnotes:

1. The terms used to define tenure are defined as:

'Owned': either owned outright, owned with a mortgage or loan, or paying rent and part mortgage (shared ownership). Social rented includes rented from council, Registered Social Landlord, Housing Association, Housing Co-operative and Charitable Trust; 'Rented from council' refers to rented from council (local authority)/Scottish Homes in Scotland and Northern Ireland Housing Executive in Northern Ireland; 'Private rented' - renting from a private landlord or letting agency, employer of a household member, or relative or friend of a household member or other person.

2. The 'occupancy rating' provides a measure of under-occupancy and overcrowding. For example, a value of -1 implies that there is 1 room too few and that there is overcrowding in the household. The occupancy rating assumes that every household, including one person households, require a minimum of 2 common rooms (excluding bathrooms).

3. Car or van availability includes any company car or van if available for private use.

4. A dependent child is a person in a household aged 0-15 (whether or not in a family) or a person aged 16-18 who is in a family with parent(s).
